Research papers

Development of collapse sinkholes in areas of groundwater discharge
Roberto Salvati and Ira D. Sasowsky 1
Identification of processes affecting stream chloride response in the Hafren catchment, mid-Wales
J. Chen, H.S. Wheater and M.J. Lees 12
Use of remotely sensed precipitation and leaf area index in a distributed hydrological model
J. Andersen, G. Dybkjaer, K.H. Jensen, J.C. Refsgaard and K. Rasmussen 34
Sediment sources in an urbanizing, mixed land-use watershed
Erin J. Nelson and Derek B. Booth. 51
Modelling stream–aquifer seepage in an alluvial aquifer: an improved loosing-stream package for MODFLOW
Yassin Z. Osman and Michael P. Bruen 69
Sensitivity of computed values of water balance and nitrate leaching to within soil class variability of transport parameters
Georges Vachaud and Tao Chen 87
Sensitivity of a large-scale hydrologic model to quality of input data obtained at different scales; distributed versus stochastic non-distributed modelling
Georges Vachaud and Tao Chen 101
Muskingum river routing with dynamic bank storage
A.L. Birkhead and C.S. James 113
El Niño 1997–98 and the hydrometeorological variability of Chapala, a shallow tropical lake in Mexico
Irina Tereshchenko, Anatoliy Filonov, Artemio Gallegos, Cesar Monzón and Ranulfo Rodríguez 133
Inorganic chemicals in an effluent-dominated stream as indicators for chemical reactions and streamflows
Kangjoo Kim, Ji Sun Lee, Chang-Whan Oh, Gab-Soo Hwang, Jinsam Kim, Sungku Yeo, Yeongkyoo Kim and Seongmin Park. . 147
Observational evidence of the influence of Pacific SSTs on winter precipitation and spring stream discharge in Idaho
Brian Harshburger, Hengchun Ye and John Dzialoski 157
The influence of microclimates and fog on stable isotope signatures used in interpretation of regional hydrology: East Maui, Hawaii
Martha A. Scholl, Stephen B. Gingerich and Gordon W. Tribble 170
Sensitivity analysis of physical and chemical properties affecting field-scale cadmium transport in a heterogeneous soil profile
P. Seuntjens, D. Mallants, J. Šimůnek, J. Patyn and D. Jacques 185
Net below canopy fluxes in Canarian laurel forest canopies
Jesús R. Aboal, M. Soledad Jiménez, Domingo Morales and José M. Hernández 201
Modelling the effects of groyne fields on the transport of dissolved matter within the Rhine Alarm-Model
A. van Mazijk 213
Susceptibility of the Batoka Gorge hydroelectric scheme to climate change
Gareth P. Harrison and H. (Bert) W. Whittington 230
Short-term evaporation and water budget comparisons in shallow Arctic lakes using non-steady isotope mass balance
J.J. Gibson 242

Corrigendum

Corrigendum to "Power of the Mann-Kendall and Spearman's rho tests for detecting monotonic trends in hydrological series" [J. Hydrol. 259 (2002) 254–271]
Sheng Yue, Paul Pilon and George Cavadias 262
